

Start an IEEE Computer Society Student Branch Chapter!

Members of student branch chapters receive opportunities to meet with industry leaders, participate in professional development programs, and develop contacts for internships and future career opportunities.

Start benefiting from a student branch chapter in eight easy steps:

1 SEARCH

Determine whether an IEEE student branch exists at your university.

A student branch must exist in order to form a Computer Society student branch chapter.

Find members.

A minimum of six IEEE Computer Society student members are needed to form a chapter.

2

3

Confirm an advisor.

The chosen faculty advisor must be a member of IEEE and the IEEE Computer Society.

Complete a petition.

Visit www.computer.org/chapter-petition for details and resources on how to complete a petition.

4

5

Submit your petition for approval.

Once your petition is complete, submit it to petition@ieee.org.

Receive your welcome kit!

Upon approval, the new student branch chapter will receive a welcome kit to guide you in getting started and help you in promoting chapter activities.

Welcome!

6

Get added to the international IEEE Computer Society Student Branch Chapter Directory.

Your new student branch chapter will be added to the online directory, linking you to students and professionals around the globe.

Connect on campus and worldwide!

With IEEE's 567 chapters and 60,000 members in 168 countries, you can start making connections right away.
